

TABLE OF RECOMMENDED SALARIES (2024)

The following levels have been established for educational qualifications (these are specific combinations to illustrate the levels; equivalent diplomas and certificates should be treated appropriately):

Level	Qualification
1	no diplomas
2	conservatory diploma (e.g. ARCT) <i>or</i> CRCCO
3	bachelor's degree <i>or</i> ARCCO
4	bachelor's degree with ARCCO <i>or</i> master's degree <i>or</i> FRCCO
5	master's degree with ARCCO <i>or</i> bachelor's degree with FRCCO
6	master's degree with FRCCO <i>or</i> doctorate
7	doctorates with FRCCO

When determining the proper level, the following adjustments should be made:

- for CHM diploma, or the Professional Diploma in Choral Conducting (Ch.RCCO), add one level
- for years of related experience: 10-15 years add one level; 16-20 years add 2 levels; 21-25 years add 3 levels; 26-30 years add 4 levels; over 30 years add 5 levels.

This salary table lists base salary only with no benefits. It reflects reasonable wages for an average Canadian city (e.g. Winnipeg). In large metropolitan areas (e.g. Toronto, Vancouver) with high cost of living realities, the amounts should be increased according to published Cost of Living analyses, ranging from 11 – 15%. Adjustments upward should be made for self-employed musicians since they must cover both portions of CPP and are not entitled to benefits. Salaries are annual and are for the year 2024. Subsequent years should be reviewed and adjusted according to increases in the cost of living.

Weddings and Funerals: Congregations are encouraged to make certain that fees for weddings and funerals reflect not only the service time but also the planning and preparation. This usually includes choosing appropriate music, musical preparation, email and/or telephone communications, and meeting with clergy and involved families. Fees reflect the experience of the organist, the area's cost of living (see above), and complexity of service possible involving soloists and extra instrumentalists. Minimum rates for weddings should start at somewhere between \$150 to \$300 and increase according to the complexities of the service and the demands on the organist. Similarly, minimum rates for wedding rehearsals start at somewhere between \$50 and \$100 and increase depending on the length of time demanded of the organist (such as rehearsals with soloists or instrumentalists). A minimum for funerals should similarly begin at \$100 to \$250.

Hours Per Wk	Level									
	1	2	3	4	5	6	7	8	9	10
6	7,675	8,878	9,781	10,987	12,040	12,941	13,996	15,049	16,102	17,006
