

Designated Organs

Classification A

To be considered historic, the organ should be at least 100 years old. (Under special circumstances, and for a significant instrument in the history of organ building in Canada, a later date may be considered.) The wind supply may be powered electrically but the original blowing system is still intact. There have been no changes made to the chests, tonal work, console, wind system, or organ case.

St Mary's Church, Crousetown, Nova Scotia. James Wilson, London England, 1826. One manual, 4 speaking stops.

[Holy Trinity Anglican Church](#), Frelighsburg, Quebec. S. R. Warren, 1867. One manual & Pedal, 9 speaking stops.

Kohler United Church, Ontario. Edward Lye & Sons, 1913.

St Paul's Presbyterian Church, Port Hope, Ontario. Casavant Frères #467, 1911. In original condition. Two manuals (61 notes) Pedal (30 notes) 18 stops.

[Zion United Church](#), Collins Cove, Burin, Newfoundland. Bevington & Sons, Charing Cross Road, London England, 1906.

St James' Anglican Church, Paris Ontario. S.R. Warren & Son, 1895. Two manuals & pedal, 10 ranks.

Classification B

In addition to Classification A, the console may have been electrified and possibly moved, but the console retains its original case and drawknobs, and the tonal work remains original.

Placed in Dunham United Church, Dunham, Quebec in 1907. Warren organ with no Opus number and uncertain date. One manual and short pedal with five stops.

First Lutheran Evangelical Church, Toronto Ontario. Samuel Karn and Russell Warren, 1911. 2 manuals & Pedal, 11 speaking stops.

Richmond Hill Presbyterian Church, ON Casavant Frères #595, 1915. 2 manuals & Pedal, 14 speaking stops

[St Paul's Anglican Church](#), Abbotsford, Quebec Manual I: 7 stops & one reed stop; Manual II 4 reed stops (harmonium) & Pedal (16' free reed)

[St John the Evangelist](#), Calgary, Alberta. Casavant Frères #492, 1912. Three manuals, 30 stops.

Highwood Lutheran Church, Calgary, Alberta. Built as Opus 81 in 1870 by the J.H. & C.S. O'Dell Organ Co. (New York). It was moved from Sing Sing, New York through the Organ Clearing House in 1969. Two manual, mechanical action. 10 Great stops, 10 Swell stops, 2 Pedal stops. Compass 58/25.

Classification C

Over 80% of the pipe work is original and the chests are still original; a restoration to the original state of the organ may be planned. (NOTE: this would not be a rebuild, but a true restoration to the original mechanics and tonal specification)

St Paul's Anglican Church, Victoria, British Columbia. Peter Conacher #826, 1891. 3 manuals & Pedal, 24 speaking stops

St Andrew's Presbyterian Church, Thunder Bay, Ontario, Casavant Frères #356, 1909. 3 manuals & Pedal, 27 speaking stops.
